

TEST REPORT

Applicant : Shenzhen Signal Electronics Co., Ltd
Address : Building 15, Xia Lang Industrial Zone, He Shui Kou Community, Matian Street, Guangming New District, Shenzhen, GD, CHINA
Report on the submitted sample(s) said to be
Sample name : M5 series, M8 series, M9 series, M12 series, M16 series, M17series, M23 series, 7/8" series, RD24 series, Push-pull Self-locking series, Distribution Boxes, SPE series
Trade mark : N/A
Model No. : M5 series, M8 series, M9 series, M12 series, M16 series, M17series, M23 series, 7/8" series, RD24 series, Push-pull Self-locking series, Distribution Boxes, SPE series
Manufacturer : Shenzhen Signal Electronics Co., Ltd
Address : Building 15, Xia Lang Industrial Zone, He Shui Kou Community, Matian Street, Guangming New District, Shenzhen, GD, CHINA
Sample Received Date : Jan. 03, 2024
Testing Period : Jan. 03, 2024- Jan. 09, 2024
Report No : ZKT-2401030102R
Test Requested : As specified by client, SVHC screening is performed according to: Two hundred and thirty-five(235) Substances in the Candidate List of Substances of Very High Concern(SVHC) for authorization published by European Chemical Agency (ECHA) on and before Jun. 14, 2023 published by European Chemical Agency(ECHA) regarding regulation(EC) No.1907/2006 concerning the REACH. According to the specified scope and analytical techniques, concentrations of SVHC(235 SVHC)are less than 0.1%(w/w)in the sample.
Test Result(s) : Pass

Tested by: Doris Zhou

Inspected by: Simon Gong

Approved by: *[Signature]*

Date: Jan. 09, 2024

Sample Description

A1	Mixture of nonmetal parts
A2	Mixture of metal parts

A. SVHC testing results:

No.	Items	CAS No.	EC No.	MDL (mg/kg)	Total (mg/kg)	
					A1	A2
--	Tested SVHCs in Chemical list	/	/	/	N.D.	N.D.

B. Tested SHVC Chemical list:

No.	Substance Name(s)	CAS No.	EC No.	Test Equipment Report Limit
The first 15 SVHC (Announced in October, 2008) Unit: %				
1	Anthracene	120-12-7	204-371-1	0.0050

Note:

-0.1%=1000mg/kg

-mg/kg=ppm=parts per million

-*: Inorganic SVHC compounds are obtained by converting the test results of cobalt, chloride, sodium, arsenic, chromium, potassium, lead, boron, zirconium, titanium, tin, phosphorus, calcium, zinc, strontium, molybdenum, aluminum and cadmium elements, and confirmed through the appropriate solvent extraction. At the same time, customers are suggested to check the chemical formula table, to further confirm whether above materials are contained.

-**: All refractory ceramic fibers are covered by index number 650-017-00-8 in Annex VI of the Regulation on Classification, Labeling and Packaging of chemical substances and mixtures, the so-called CLP Regulation (Regulation (EC) No 1272/2008).

-***: C.I.: Color Index

-****: Light fractions from distillation

^①In view of the substances are established as UVCB substances (substances of unknown or variable composition, complex reaction products or biological materials) consisting of different and variable constituents the test results are calculated based on the main constituents of the representative compounds for substances.

^②In view of the substance contain variable substances, the test results are calculated based on main constituents of the representative compounds for the substances, and the test results of the representative compounds are calculated based on the result of specified heavy metal elements.

Appendix:

(1) The chemical analysis of specified SVHC is performed by means of currently available analytical techniques against the following SVHC related documents published by ECHA:

<http://echa.europa.eu/web/guest/candidate-list-table>

These lists are under evaluation by ECHA and may subject to change in the future.

(2) Concerning article(s):

In accordance with Regulation (EC) No 1907/2006, any EU producer or importer of articles shall notify ECHA, in accordance with paragraph 4 of Article 7, if a substance meets the criteria in Article 57 and is identified in accordance with Article 59(1) of the Regulation, if (a) the substance in the Candidate List is present in those articles in quantities totalling over one tonne per producer or importer per year; and (b) the substance in the Candidate List is present in those articles above a concentration of 0.1% weight by weight (w/w). Article 33 of Regulation (EC) No 1907/2006 requires supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.1% weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance in the Candidate List.

(3) Concerning material(s):

Test results in this report are based on the tested sample. This report refers to testing result of tested sample submitted as homogenous material(s). In case such material is being used to compose an article, the results indicated in this report may not represent SVHC concentration in such article. If this report refers to testing result of composite material group by equal weight proportion, the material in each composite test group may come from more than one article. If the sample is a substance or mixture, and it directly exports to EU, client has the obligation to comply with the supply chain communication obligation under Article 31 of Regulation (EC) No. 1907/2006 and the conditions of Authorization of substance of very high concern included in the Annex XIV of the Regulation (EC) No. 1907/2006.

(4) Concerning substance and preparation:

If a SVHC is found over 0.1% (w/w) and/or the specific concentration limit which is set in Regulation (EC) No 1272/2008 and its amendments, client is suggested to prepare a Safety Data Sheet (SDS) against the SVHC to comply with the supply chain communication obligation under Regulation (EC) No 1907/2006, in which:

-a substance that is classified as hazardous under the CLP Regulation (EC) No 1272/2008.

-a mixture that is classified as hazardous under the CLP Regulation (EC) No 1272/2008, when it contains a substance with concentration equal to, or greater than the classification limit as set in Regulation (EC) No. 1272/2008; or

-a mixture is not classified as hazardous under the CLP Regulation (EC) No 1272/2008, but contains either:

(a) a substance posing human health or environmental hazards in an individual concentration of $\geq 1\%$ by weight for mixtures that are solid or liquids (i.e., non-gaseous mixtures) or $\geq 0.2\%$ by volume for gaseous mixtures; or

(b) a substance that is PBT, or vPvB in an individual concentration of $\geq 0.1\%$ by weight for mixtures that are solid or liquids (i.e., non-gaseous mixtures); or

(c) a substance on the SVHC candidate list (for reasons other than those listed above), in an individual concentration of $\geq 0.1\%$ by weight for non-gaseous mixtures; or

(d) a substance for which there are Europe-wide workplace exposure limits.
